

GUEST MODE

Your guests can confidently use their own app accounts and subscriptions on the METZ Roku® TV with **Guest Mode**. Guests can enjoy free content, live TV, and music or try out any of the 10,000+ apps that Roku offers. Guest can also add any app they want from the Roku Streaming Channels Store. In Guest Mode, your guests will not be able to access your apps, make unauthorized purchases on your card, or influence your recommendations on your Roku account.

You can also customize and make your guest experience unique to you and your business, with editable text on the welcome page (You can simply change this welcome message anytime via your Roku account linked to the device).

As well as editing the welcome message, you can change the Name and Location of the TV / See the Serial number and when you linked the device / Customize your message *36 Characters / Sign guest out or disable guest mode. All of this can be done remotely via your PC or smart device. (Manual activation of guest mode + signing out / deactivation can be done through the TV also).

You can have up to **20** Metz TVs per master account, just create another account if you wish to add more! All accounts are **Free** to sign up to and use, importantly Guest mode is preinstalled in all Metz Roku® TV's.

My linked devices

Name	Location	Serial number	Linked	Actions
50" METZ Roku TV	Living room	X012005CYSWA	21/8/2023	<input checked="" type="checkbox"/> Guest Mode Remove device
Guest Mode options:				Customise welcome message Sign guest out
Host enabled: 21/8/2023	Guest activated: 26/1/2024	Sign-out date: 30/1/2024		

Guests will be greeted with a checking out screen on the next step asking when they will be leaving, this is so that by 11 am on the date of checkout all the guest's information and application logins will be deleted from the TV entirely, with the TV reset back to the main welcome screen. No longer will you have guests leaving personal information on the Smart TV with this feature. (Guests can choose to sign out early and prolong their stay in guest settings). After this guest can watch live TV and login to all their favourite apps, with the peace of mind that the TV will check them out on the day you do!
